

At the press of a button ...

... monitor, keyboard and mouse ...

... are available or completely hidden

T-Com | T-Com is the ideal workstation for the integration of flat screens and computers. Therefore, education courses and trainings on computers can be carried out flexibly in the same room. The table is very stable and easy to operate. It requires little floor space and offers a lot of leg-room for the user. Optimum cable management is an additional feature. Thanks to a modular construction, T-Com is flexible and adaptable. Monitor, keyboard and mouse raise or retract at the push of a button. The cover opens and closes automatically – absolutely safely.

- At the press of a button, monitor, keyboard and mouse are available or completely hidden
- Table dimensions, colours and materials can be freely chosen
- Plenty of space for technology and nevertheless lots of space for the user
